### ABSTRACT

This chapter elaborates on the development of Aikido Portal and. Aikido is a Japanese martial art developed by Morihei Ueshiba. It is an art involving throws and joint locks derived from Jujitsu and Kenjutsu. Aikido focuses using energy to gain control of the opponents or to throw them away. It places great emphasis on motion and the dynamics of movement. Aikido has become popular in countries including Malaysia. Aikido is originally in Japanese language. It is hard for people who do not know Japanese language to learn Aikido. Therefore, the purpose of this project is to disseminate the knowledge of Aikido for club members and promoting this martial art to other people worldwide. Hopefully this portal would benefit Aikido Club members and would attract non-members to join these martial arts.

### 14.1 Introduction

Aikido is a great martial art that originates from Japan. Aikido is the art of assimilation and unification according to the way of gracious spiritual harmony. Therefore there are no concept of duels, struggles and opponents. There is only harmonious action of one's spirit with the universe. That is the basis principle of aikido. It becomes more popular in Malaysia. We have one aikido club in IIUM. Presently, there are many websites related to Aikido, but there is none for specifically designed Aikido Club members. Thereby, this portal is developed to be fully utilized by Aikido members and non-members with the hope that Aikido Portal will increase the number of Aikido members while promoting Aikido martial arts to those who never heard about it before. Martial arts
